112G

A high quality single hose dispenser for retail or commercial application

The 112G provides a cost effective solution for single grade fuel dispensing. Made in Gilbarco Veeder-Root's German manufacturing plant, 112G is a high quality pump offering reliability and durability.

The pump uses same global components as in other Gilbarco pumps offering ease of maintenance and wide availability of spare parts. The pump offers both ATEX and OIML approved models.

Value proposition

Reliable

- > A robust solution for both retail and commercial need
- > Efficient and field proven electronics (more than 10 years in production)

Durable

- > Quality construction with steel finished in powder coating
- > Same high quality parts that are used across the Gilbarco product range

Cost effective

- > Ideal choice for single grade requirement
- > Minimal maintenance lowering the total cost of ownership

Features & Benefits

Flow rates

- > Available in standard, high and ultra high flow

Commercial and retail Models

- > Flexibility to mix and match different variants as per need

Electronics Connectivity

- > Easily connects to variety of fuel management and Point of Sale systems

Space Efficient Design

- > Compact unit

Approvals

- > ATEX, OIML and necessary weight and measure approvals

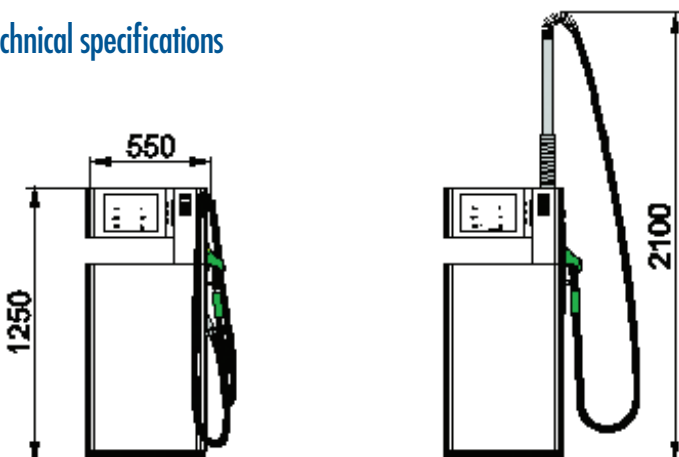

Easy hose handling

- > Option of overhead spring mast providing better usability

Various options

- > E85 compatibility
- > Vapour recovery
- > Preset buttons
- > Enhanced corrosion resistance
- > Stainless steel body spring mast

Technical specifications

Fuels	Petrol, Diesel, E85
Flow Rates	40 L / min, 80 L / min, 120 L / min
Electrical connection	230/400 V AC, 3-phase 230 V AC, 1-phase 50 Hz ± 2%
Communication protocol	IFSF Puma Lan ATCL 2 wire
Environment	External conditions from -20 C to +55 C
Hose	Reach 3,6 m (with hose holder)
