

Durable

Robust

397G

A robust and durable pump supporting various fuels

Integrating the best-in-class technology, built-in reliability and durability, the 397G is adaptable to customer needs supporting a variety of fuels (including E85) for both retail and commercial use. Made in Gilbarco Veeder-Root's German

manufacturing plant, 397G offers up to two fuel grades and up to four hoses. A high quality pump that uses same global components as in other Gilbarco pumps offering ease of maintenance and wide availability of spare parts.

Value proposition

Durable

- > A resilient product that is designed to be strong with fully self supporting structure
- > Galvanised steel frame that resists corrosion for a lasting use

Lower total cost of ownership

- > Lower operational expenses due to the enhanced Gilbarco Veeder-Root global pumping unit
- > Reduced fuel losses using Ecometer™

Adaptable

- > Use for commercial or retail set-up
- > Modular design offering breadth of configuration

Features & Benefits

Commercial and Retail use

- > Robust and resilient dispenser enabling use in extreme conditions
- > Use with two grades and up to four hoses

H-Frame with hose mast

- > Design providing structural strength for rugged use

Electronics connectivity

- > Configure to connect to variety of fuel management and point of sale systems

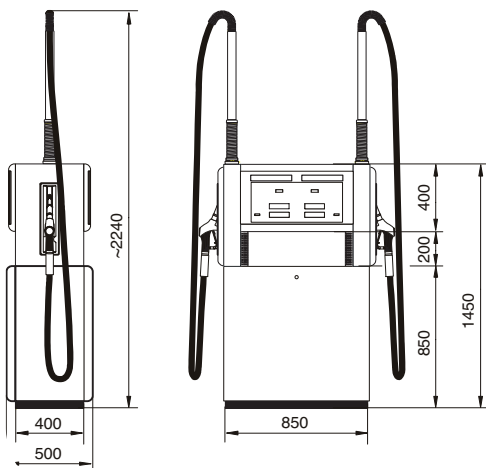

Approvals

- > Necessary European approvals (ATEX, MID) for all models

Various Options including

- > Ecometer™
- > Vapour recovery and monitoring
- > Automatic temperature compensation (ATC)
- > Stainless steel body

Overall dimensions

Fuels	Petrol, Diesel, E85
Flow Rates	40 L / min, 80 L / min, 120 L / min
Electrical connection	230/400 V AC, 3-phase 230 V AC, 1-phase 50 Hz ± 2%
Communication protocol	IFSF Puma Lan ATCL 2 wire
Environment	External conditions from -20 C to +55 C
Hose	Reach 3,6 m (with hose holder)
