

## FlexPay™ NP3

A modern and flexible stand alone outdoor payment terminal that provides extensive options and expandability.

> Gilbarco Veeder-Root's FlexPay™ Outdoor Payment Terminals (OPT) provide cost-effective and compliant payment on the forecourt, regardless of the dispenser make and model.

OPT's are a great addition when there is no Pay @ Pump or when it is not feasible to add a PCI and EMV compliant CRIND® to each dispenser.

> There are more than 10,000 sites throughout Europe which have been installed with Gilbarco Veeder-Root's OPT terminals, facing harsh environments and any type of attacks.

The FlexPay™ NP3 is designed for supporting attended or unattended sites, allowing customers to operate 24 hours or completely unattended operations

> Features of the NP3 include an optimised footprint which ensures it can fit into any forecourt and lane orientation. Plus it has a familiar ATM-styling for speedy transactions along with multiple payment types.

## Features and benefits

### Designed to attract and excite

The optional 12" screen will be the star of the forecourt, vibrantly projecting your advertising or promotional campaign.

### Multimedia features and security marriage

Incorporating Gilbarco Veeder-Root SPOT M4 payment platform including large format advertising, free video, audio streaming and touch screen.

### Multiple payment types

No matter what the payment methods are, FlexPay™ NP3 can handle them.

### Robust

Its ATM style design, means it is robust and resilient. The FlexPay™ has proven its reliability over thousands of installations across Europe facing harsh environments.

### Modern design

Through its modern eye-catching look the enhanced user experience will distinct your forecourt from others.

### Optimised footprint

Designed to fit narrow areas like islands, beside columns or attached to a wall.

## Easy to service

No matter if it's a paper roll change, an engineer check-up or a third party money collection. There is easy maintenance access via front panels.
