

More Control  
Less Effort.

Better  
Results.

## Fuel Management Services

## More control, less effort, better results

Managing fuel is difficult. Your aim is to maximise the efficiency and profitability of the fuel retailing and distribution operation whilst minimising loss of product, either as a leak to the environment or a loss in the transfer process.

Our Fuel Management Services (FMS) can support your own fuel management efforts in virtually any capacity you need; from providing reliable timely data collection and real time alarm notification, to managing the leak detection program or supporting your dispatch management.

Fuel Management Services are for fuelling site owners who want:

- > Reliable and cost effective risk management and /or logistics support
- > One fuel management service that works for sites with or without a tank gauge
- > Consolidated reporting and analysis for improved decision making

**FMS is a powerful web-enabled application that helps improve fuel management with greater control, less effort and better results.**

- > FMS offers fully customisable levels of support
- > Backed by powerful, cost-efficient technology and expertise
- > Track every drop of fuel from supply points to delivery in your customers' tanks
- > Experience you can count on
- > Timely reporting that helps you make decisions fast
- > Information you need, when you need it
- > 24 hour help desk
- > Daily Loss Advisor with Fuel Finder™ Technology
- > Data collection & reporting
- > Drive more efficient fuel operations by improving fuel management and inventory control
- > Resolve ATG alarms remotely, improving site up time and lowering servicing costs

“

We believe the Fuel Management Service from Gilbarco Veeder-Root is the most cost-effective way for us to implement risk management and loss control across our site network.

TOTAL, UK

”

## FMS Features and Benefits

Modules	Features and benefits
Automated SIR or Manual	<ul style="list-style-type: none"> <li>&gt; Loss identification, indication of theft, temperature variance, short deliveries and over dispensing from pumps</li> <li>&gt; Leak detection and risk management in compliance with APEA Blue Book Leak Detection Systems Class 6a and 6b</li> <li>&gt; Independently certified to meet US EPA requirements of 0.38 or 0.76 litres per hour leak detection</li> <li>&gt; Automated reconciliation and loss reports</li> <li>&gt; No tank gauge, No problem! Gilbarco Veeder-Root offer SIR services using manual data collection and by using statistical analysis, we can suggest corrective actions</li> </ul>
Variance Management	<ul style="list-style-type: none"> <li>&gt; Identifies the amount of fuel variance due to temperature and short delivery on each site each month</li> </ul>
Alarm Management	<ul style="list-style-type: none"> <li>&gt; Real-time management of tank gauge alarms with diagnostics, remote fix and dispatch management</li> </ul>
Alarm Monitoring	<ul style="list-style-type: none"> <li>&gt; Automatic third-party email notification of critical tank events</li> </ul>
Inventory Planning	<ul style="list-style-type: none"> <li>&gt; Plan deliveries better, based on consolidated inventory reports</li> <li>&gt; Collect real-time site inventory data on demand</li> </ul>
Delivery Scheduling	<ul style="list-style-type: none"> <li>&gt; Optimise deliveries based on fuel usage, predicted run-out date and time and optimal inventory at site</li> </ul>
Delivery Verification	<ul style="list-style-type: none"> <li>&gt; Provide an audit trail of deliveries across the network</li> </ul>
Daily Loss Advisor	<ul style="list-style-type: none"> <li>&gt; Identifies controllable sources of fuel loss quickly</li> </ul>
Set-Up Monitoring	<ul style="list-style-type: none"> <li>&gt; Confirm site equipment has been configured correctly; automatically detects and corrects tampering with safety critical parameters</li> </ul>
Flow Management	<ul style="list-style-type: none"> <li>&gt; Measure, display and alarms for low flow rates (or no flow at all!) for each individual nozzle on a station</li> </ul>

## How it works

## What's important to you?

 Environmental/Risk Assessment	 ATG/Dispenser Performance	 Fuel Logistics	 Fuel Inventory Control	 Customer Support Services
<ul style="list-style-type: none"> <li>&gt; Monthly/weekly SIR reporting – ATG compliance reporting</li> <li>&gt; UST compliance management</li> <li>&gt; Alarm monitoring management, email notification, diagnosis &amp; dispatch management</li> </ul>	<ul style="list-style-type: none"> <li>&gt; Savings through meter drift identification through SIR</li> <li>&gt; ATG alarm monitoring &amp; email notification</li> <li>&gt; ATG alarm monitoring, diagnosis &amp; dispatch management</li> <li>&gt; VR2 monitoring</li> <li>&gt; Flow monitoring</li> </ul>	<ul style="list-style-type: none"> <li>&gt; Inventory reporting</li> <li>&gt; Delivery reporting</li> <li>&gt; BOL reconciliation</li> <li>&gt; Poll Now request</li> <li>&gt; Delivery verification</li> </ul>	<ul style="list-style-type: none"> <li>&gt; Savings through meter drift identification through SIR</li> <li>&gt; Daily loss advisor</li> <li>&gt; Monthly inventory reconciliation</li> <li>&gt; Periodic inventory reconciliation</li> <li>&gt; Variance analysis reporting</li> <li>&gt; Poll Now request</li> </ul>	<ul style="list-style-type: none"> <li>&gt; Account management</li> <li>&gt; Site configuration report</li> <li>&gt; Active site report</li> <li>&gt; Program management status</li> <li>&gt; Online help</li> <li>&gt; Fuel management performance analysis</li> <li>&gt; FMS online</li> </ul>

## Gilbarco Veeder-Root Products – behind every successful forecourt

Gilbarco Veeder-Root is the largest supplier in the world representing the leading brands of solutions and technologies that provides convenience, control and environmental integrity to retail fuelling and adjacent markets. Gilbarco Veeder-Root is the only manufacturer that can provide all your fuel forecourt solutions.

### Pumps and Dispensers

Designed to be at the core of retail forecourt solutions centering on quality and innovation, Gilbarco Veeder-Root's broad portfolio of pumps and dispensers are proven to deliver profitability for our customers today and tomorrow.

### Automatic Tank Gauging

Innovative tank monitoring and loss detection to automate wet stock management, environmental control and risk management across the network and allow centralised data management to optimise operational profitability.

### FlexPay

Secure and flexible payment solutions to create new business at the pump.

### Retail Solutions

The leading provider of solutions and tools to support fuel retailers in improving profits and preparing business for tomorrow's challenges.

### Submersible Pumps

The most efficient way to pump fuel on a forecourt; consistent flow rates, no vapour lock and minimal maintenance.

### Forecourt Solutions

Combine POS and forecourt equipment of any make or brand for efficient control and management of your petrol station forecourt.
