

Robust &
Reliable

Advanced

FlexPay™ SPOT OPT

Robust and widely adopted outdoor payment terminal with a track record of reliability in fully unattended forecourts

Leveraging a tradition of reliability, Gilbarco Veeder-Root's OPT terminals are installed throughout Europe on more than 10,000 sites, facing harsh environments and numerous types of attacks.

The FlexPay™ SPOT OPT can be single or double sided to support any type of automation model. With various options and configurations to support any type of usage, method of payment, operating mode or position in the forecourt.

With an optimised footprint, the SPOT OPT can fit into any forecourt and lane orientation. It has a familiar ATM-styling for speedy transactions along with multiple payment types.

Importantly, the FlexPay™ SPOT OPT is compliant with the latest laws and regulations (PCI-PED and EMV Level 1 & 2 certified.)

The SPOT OPT also features advanced security with its FlexPay™ technology, built-in anti-skimming, native privacy shield and a separate access door for printer maintenance.

The FlexPay™ SPOT OPT is a safe investment improving the forecourt environment with modern and user friendly design with an extensive set of features that can be added or upgraded over time.

Features and benefits

Automated forecourt

SPOT OPT is the perfect tool to automate the forecourt payment, extend opening times or move to completely unattended sites..

Rich interface

The interactive 5.7" colour screen can deliver effective messaging for loyalty schemes or promotions.

Slave or Master device

Available as a slave device, if a Gilbarco Veeder-Root or third party forecourt controller is present or as an autonomous master device.

Replaces legacy terminals

The SPOT OPT utilises the same fixing points of older Logitron or Pumacard terminals, avoiding heavy civil works and costs.

Robust

The SPOT OPT's ATM styled design, robust and rugged, has proven its reliability over thousands of installations.
