**GILBARCO
VEEDER-ROOT**

Select the right commercial pump

Gilbarco Veeder-Root offers a comprehensive range of pumps for use with gas oil, diesel and petrol - all available from stock. Designed to last, these pumps are robust and heavy-duty featuring World Class proven technology. In addition, as the UK's largest fuel pump and dispenser service provider, you can be assured we also provide comprehensive after-sales support including a full on-site warranty with each pump.

Standard pump specification

The following high quality specification applies to all four categories of pump:

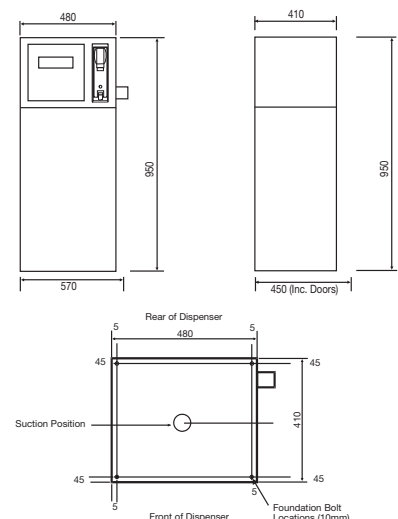

- High quality, positive displacement, 4 piston meter, accurate to +/- 0.5%
- World Class hydraulics for use with above or below the ground storage tanks with air separator and integral filter
- Digitally displayed totaliser readings
- Genuine ZVA automatic nozzles to reduce overfilling and fuel spillage
- High quality delivery hoses fitted as standard and available with breakaway couplings if required
- Automatic start and re-set facility
- Illuminated electronic displays for 24 hour usage and maximum clarity
- Suitable for all environments -20 to +70 °C including truck-stops and heavy-duty usage
- Choice of Fuel Management System interfaces (serial data, 100PPL or 10PPL)

Options

- Dual sided display for use on fuel islands
- Hi-hose mast suited to longer hoses

GTP Compact/tank pump

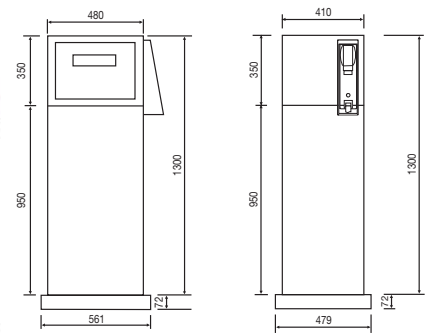

Compact with a small footprint this pump is designed to operate inside a tank or security cabinet, or be mounted on a welded platform on the tank - particularly suited to installations where space is limited.

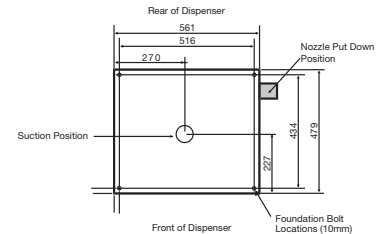

Dispensing speed: litres/minute	Fuel suitability	Cabinet	Fuel management interface system
50 70	Diesel / Gas oil	Mild steel	Pulser

GCP Commercial pump

A popular choice for all commercial sites offering a free-standing, heavy-duty pump and outstanding performance.

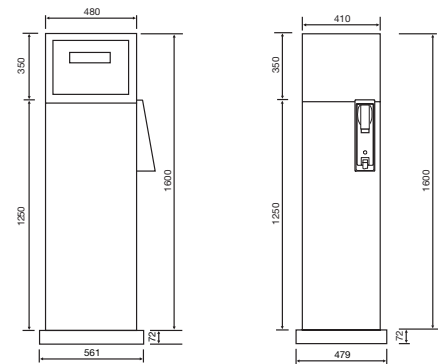

Dispensing speed: litres/minute	Fuel suitability	Cabinet	Fuel management interface system	Approvals
50 70 80	Diesel & Gas oil	Mild steel or Stainless steel	Pulser	DTI

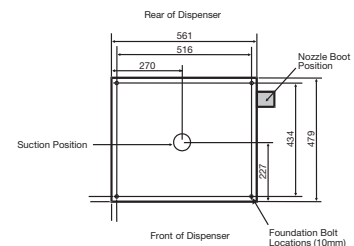

GADP ATEX and DTI approved pump

Designed for commercial sites involved in the re-sale of petrol or diesel requiring weights and measures approval.

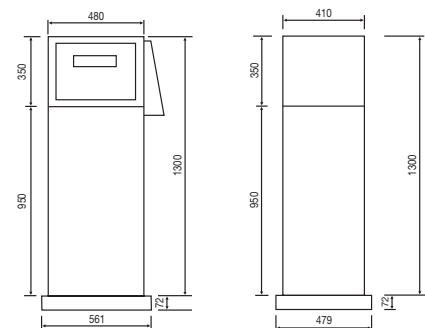

Dispensing speed: litres/minute	Fuel suitability	Cabinet	Fuel management interface system	Approvals
50 70 80	Petrol Diesel & Gas oil	Mild steel	Pulser or Serial	DTI & ATEX

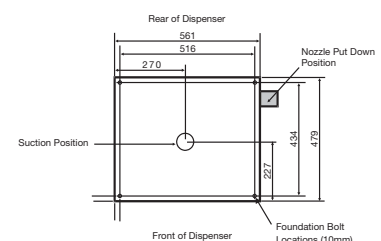

GIP Integrated fuel management pump

Designed for those sites requiring total security and accuracy in the management and environmental control of fuel stock.

Dispensing speed: litres/minute	Fuel suitability	Cabinet	Fuel management interface system
50 70 80	Diesel / Gas oil	Mild steel	Pulser
