

# Why BOS/HOS/POS?

Gilbarco Veeder-Root's Retail Solution is designed to deliver ultimate performance, security and efficiency to all forecourt merchandising operations. The Retail Solution can connect with dispensers, tank gauges, card payment systems, central ERP and supplier systems. PassPort is completely customisable, providing dynamic retail and wet stock tracking.

Incorporating business intelligence tools for analysis of historical data, PassPort's modular structure and optional software maintenance agreements mean you can buy only what you need today and expand as your business grows. The PassPort systems let you track transactions with unique login IDs as well as manage stock levels and stock orders. The complete PassPort solution allows simple maintenance and avoids integration issues for optimum system performance.

## The complete PassPort solution

# Gilbarco Veeder-Root products

## Behind every successful forecourt

Gilbarco Veeder-Root is the largest supplier in the world representing leading brands and providing convenience, control and environmental integrity to retail fuelling and adjacent markets. Gilbarco Veeder-Root is the only manufacturer that can provide solutions for every forecourt.

### Pumps & Dispensers

Designed to be at the core of retail forecourt solutions centering on quality and innovation, Gilbarco Veeder-Root's broad portfolio of pumps and dispensers are proven to deliver profitability for our customers today and tomorrow.

### Automatic Tank Gauging

Innovative tank monitoring and loss detection to automate wet stock management, environmental control and risk management across the network. Plus allow centralised data management to optimise operational profitability.

### FlexPay

Secure and flexible payment solutions to create new business at the pump.

### Retail Solutions

The leading provider of tools to support fuel retailers in improving profits and preparing business for tomorrow's challenges.

### Submersible Pumps

The most efficient way to pump fuel on a forecourt; consistent flow rates, no vapour lock and minimal maintenance.

### Forecourt Solutions

Combine POS and forecourt equipment of any make or brand for efficient control and management of your petrol station forecourt.

tomorrow's challenges

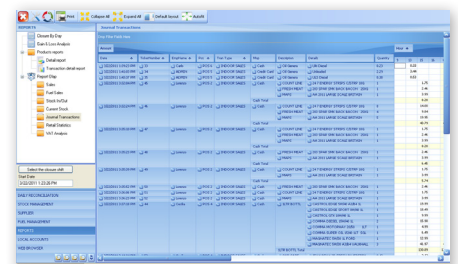

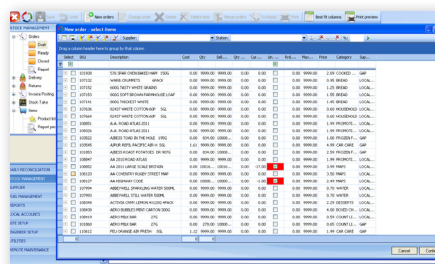

# Why Gilbarco Veeder-Root BackOffice?

The Gilbarco Veeder-Root Back Office System (BOS) is a simple, modular system that can be built for low and high end site automation purposes. Not only does this system manage the wet stock on your forecourt, it also assists in the management of dry stock. The clever reporting system enables you to monitor ordering, pricing and promotions of your in store products.

Integrate a BOS system for a scalable forecourt and shop management solution that is designed to meet all your automation needs.

				
Total business control & security	Fast, intuitive & future proof functions	Quality reporting	Simple & flexible integration	Supply chain management
<ul style="list-style-type: none"> <li>&gt; Manage both fuel and dry goods using one intuitive system</li> <li>&gt; Fraud and inefficiencies can be monitored and discovered, eliminating the requirement of offline management</li> </ul>	<ul style="list-style-type: none"> <li>&gt; Smart shortcuts designed for recurrent actions</li> <li>&gt; Utilises dashboards to present selected data or reports</li> <li>&gt; All commands are context sensitive</li> <li>&gt; Regular updates deliver future-proof feature and module upgrades</li> </ul>	<ul style="list-style-type: none"> <li>&gt; Introduce Business Intelligence tools commonly available only in Central Systems</li> <li>&gt; Standard shift control reports are available instantly</li> <li>&gt; On-site decisions relating to promotions, stock levels and stock replenishment based on sales analysis reports</li> </ul>	<ul style="list-style-type: none"> <li>&gt; The BOS is designed to connect to virtually any central Head Office System</li> <li>&gt; Includes an adaptable XML import/export interface</li> <li>&gt; Integrates seamlessly with Gilbarco Veeder-Root POS systems as well</li> <li>&gt; Full scalability for an overall Back Office solution</li> </ul>	<ul style="list-style-type: none"> <li>&gt; Profitable stock management with an innate management system</li> <li>&gt; Hand held terminals can be used to manage inventory, shelf label checking and the ordering and receiving of goods</li> </ul>

# Why Gilbarco Veeder-Root HeadOffice?

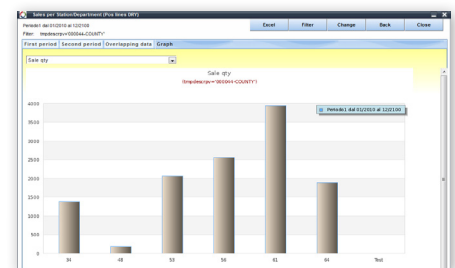

The Head Office System (HOS) provides the ultimate monitoring and control solution, enabling instant network management from your company headquarters. PassPort HOS is based on a central data warehouse containing network wide transaction and operation details. It is fully integrated with PassPort BOS and flexibly tailored to support any company operated, dealer operated, or mixed models.

HOS gives you a scalable, web-based solution that centralises forecourts as well as shops to enable total fuel and dry stock control.
